PROFESSIONAL SUMMARY

Computer Science graduate and MERN Stack Developer with hands-on experience across 2 professional internships and 4 independently built full-stack web applications. Proficient in JavaScript (ES6+), React.js, Node.js, Express.js, and MongoDB, with working knowledge of REST API design, JWT authentication, bcrypt password hashing, CORS, and refresh-token security flows. Comfortable across the full Software Development Life Cycle (SDLC) - requirement gathering, development, testing, and deployment. Strong problem-solving ability, clean coding practices, and fast ramp-up on new technologies. CGPA: 7.99/10. Available for immediate joining.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, SQL, Java (Basic)

Frontend Development: React.js, HTML5, CSS3, Responsive Web Design, Reusable Components, React Hooks, JSX

Backend Development: Node.js, Express.js, REST API Design, CRUD Operations, API Integration

Databases: MongoDB, MySQL, Mongoose ODM

Authentication & Security: JWT, Refresh Tokens, bcrypt, CORS, Secure Coding Practices

Tools, Platforms & Practices: Git, GitHub, VS Code, Postman, npm, SDLC, Agile, Debugging, Unit Testing

PROFESSIONAL EXPERIENCE

Front-End Developer Intern, Inetz Technologies

Sep 2024 - Oct 2024

Tamil Nadu, India

- Developed responsive UI components using HTML5, CSS3, JavaScript, and React.js for client-facing web applications.
- Converted Figma design mockups into pixel-perfect, mobile-friendly interfaces in collaboration with the development team.
- Applied component-based architecture and React Hooks for efficient application state management.

Full Stack Developer Intern, RE Tech Solutions

May 2023 - Jun 2023

Tamil Nadu, India

- Built frontend and backend features end-to-end using the MERN stack (React.js, Node.js, Express.js, MongoDB).
- Developed and tested REST API endpoints, then integrated them with the React.js frontend for dynamic data rendering.
- Contributed across the full SDLC, from requirement gathering through testing and deployment.

PROJECTS

Job Board Application - MERN Stack

React.js, Node.js, Express.js, MongoDB, JWT | github.com/Murali-2004/job-board-app

- Built a full-stack job portal with job posting, advanced filtering, and resume upload functionality.
- Implemented REST API endpoints for job CRUD operations and secured routes with JWT authentication.

YouTube Content Aggregator - MERN Stack

React.js, Node.js, MongoDB, YouTube API | github.com/Murali-2004/you

- Built a platform that aggregates and ranks educational YouTube content using a custom Content Quality Score algorithm.
- Integrated YouTube API data into MongoDB for persistent storage and fast querying, with dynamic content filtering.

Book Store Application - React.js

Hooks, State Management, Component Architecture | github.com/Murali-2004/book-store

- Built a fully responsive book store app with reusable components and centralized state management.
- Implemented full CRUD functionality for book listings with an interactive, user-friendly UI.

Quiz Application - React.js

Hooks, Conditional Rendering, State Management | github.com/Murali-2004/QuizApp

- Developed an interactive quiz app with dynamic question rendering, score tracking, and instant feedback.

EDUCATION

B.E., Computer Science & Engineering, Sri Venkateswaraa College of Technology

2021 - 2025

CGPA: 7.99 / 10

Higher Secondary Education, Model Higher Secondary School

HSC: 79% | SSLC: 72.8%

CERTIFICATIONS

Python Certification - Great Learning | Internship Certificates - Inetz Technologies & RE Tech Solutions | International Conference Participation Certificate | Microsoft Office Basics - Naan Mudhalvan

Soft Skills: Quick Learner, Problem-Solving, Teamwork, Communication | **Languages:** English, Tamil (Native)
